THE SCOPE OF EASTM

Copyright © 2011. *EASTM* (formerly *Chinese Science*) is published by the International Society for the History of East Asian Science, Technology, and Medicine (ISHEASTM). Numbers 1-10 (1975-1992) were published irregularly under the editorship of Nathan Sivin (University of Pennsylvania). Numbers 11-15 (1993-1998) were issued annually at the University of California, Los Angeles, by Benjamin A. Elman. Beginning with Number 16 (1999), the name of the journal changed to *East Asian Science, Technology, and Medicine* and it is published by Hans Ulrich Vogel at the University of Tübingen, Germany. The publication of this periodical is supported by a grant from the *Deutsche Forschungsgemeinschaft* (DFG).

This journal includes studies on the science, technology, and medicine of traditional and contemporary East Asia. Any study based on original research using Chinese, Japanese, Korean or Vietnamese primary sources or artifacts, that elucidates the relationships and interactions of science, technology, and medicine with politics, society, economics, philosophy, culture, religion, historiography, as well as their disciplinary traditions, or throws light on the work of scientists, technologists, and physicians in East Asia will gladly be considered.

SUBMISSIONS

Potential contributors are encouraged to correspond with the editor before submitting manuscripts in order to ensure that their work falls within the purview of *EASTM*, and to simplify the preparation of the final copy. All contributions except invited reviews are refereed. The editor does not referee. For Chinese romanization, both Pinyin and Wade-Giles transcriptions are accepted, while for Japanese and Korean, the Hepburn and McCune/Reischauer systems are to be used. With regard to style and format, contributors should refer to the latest issue of *EASTM*. Information on the preparation of manuscripts and their submission in electronic form will also be provided on request.

SUBSCRIPTIONS AND PAYMENTS

ISHEASTM MEMBER RATE, gives right to all issues of the journal in the membership period (currently four years and eight issues), postage paid (surface mail) anywhere: normal rate € 90.00 or US\$ 120.00; concessional rate for PhD students, postdocs within first five years of their PhD, or retired persons: € 16.00 or US\$ 22.00.

INSTITUTIONAL RATE, one year, two issues € 55.00 or US\$ 74.00, postage paid (surface mail) anywhere; single issues, postage paid (surface mail) anywhere: € 28.00 or US\$ 38.00.

BACK ISSUES: The issues no. 1-11 of *Chinese Science* are out of print, but can be downloaded online at www.uni-tuebingen.de/fakultaeten/philosophische-fakultaet/fachbereiche/aoi/sinologie-koreanistik/sinologie/eastm-journal.html.

Members of the Society (which includes all individuals holding a subscription) as well as institutions may purchase back issues at a special rate upon inquiry with the Editor-in-Chief (eastm@uni-tuebingen.de).

PAYMENT METHODS: For individual subscriptions PayPal is our preferred method. For institutional subscriptions we prefer electronic funds transfer direct to our bank account as shown on our invoice. For other methods, contact the Treasurer.

Subscribers are requested to notify the editorial office of any changes in address, and to pay the invoice, which will be sent prior to the expiry of the subscription, promptly.

Send orders or inquiries to the Treasurer of ISHEASTM: treasurer@isheastm.org

PUBLICATION FREQUENCY

From 2011 onwards there will be one normal issue of EASTM each year, and one special issue, making two issues each year.

ISHEASTM

The publication, since the fifties, of Joseph Needham's (1900-1995) monumental work, *Science and Civilisation in China*, has been followed by a rapid development of research on the history of science, technology, and medicine in China, as well as in civilisations upon which Chinese culture exerted an important influence, such as Japan, Korea, and Vietnam. Beginning in 1982, International Conferences on the History of Science in China were held at irregular intervals. At the sixth of these conferences, held in Cambridge in 1990 in honour of Joseph Needham's ninetieth birthday, participants agreed to found the International Society for the History of East Asian Science, Technology, and Medicine (ISHEASTM).

The Society's purpose is to serve, represent and speak for scholars of the field defined by its name. It aims, primarily, to promote contacts and exchanges between these scholars, and also to establish and reinforce links with other scholarly communities at an international level. The Society's activities include:

- The organisation of a plenary meeting every three years (Kyoto 1993, Seoul 1996, Singapore 1999, Shanghai 2002, Munich 2005, Baltimore 2008; Heifei 2011), and thereafter at four-yearly intervals;
- The publication of a journal, *EASTM*;
- The provision of an email discussion group for members.

For more information on the Society, see the website at <http://isheastm.org>.
